Clear PVC Cafe Blinds

Turn your pergola into an all weather room! Wind, Rain and Dust Protection Clear PVC Cafe Blinds are a modern way of turning your outdoor structure into an all weather room. Indoors Outdoors Clear Cafe Blinds are a custom made weather seal that attaches at the top and at the sides via sail tracking that is powder coated to match your structure. The blinds can be rolled up by unzipping them and rolling them either by hand or via a pulley system. We can add doorways, allow for pitched tops and come up with other custom solutions. Gable ends also available.

These Cafe Blinds are Available In Clear PVC, Tint (Light and Dark) PVC, Solid (AKK920) PVC and ShadeView.

We measure, make and install these blinds.

Shadeview Blinds

Create shade keep the view!
Keep the summer heat and sunlight out of your entertaining area, and reduce cooling costs with our 90% blackout material. Still keep you view using revolutionary ShadeView Mesh Cloth. These blinds can be sprung loaded and held under high tension or made with our zippered edge cafe style. We can install them on your pergola or over a window.

We measure, make and install these blinds.
